**Hiring possibility**

# **PROJECTS**

- 1. Online Document Sign Solution (SaaS)**
- 2. Password Management Solution**
- 3. API Health-check Monitoring Platform**
- 4. Document Intelligence System**
- 5. Enhancing HR Portal Apps**
- 6. Quality Assurance Assessment**
- 7. Design and Implementation of a Secure Zero Trust Architecture on Azure**
- 8. Securing Organizational Environment with Microsoft XDR and Sentinel**
- 9. Implementing Organizational Data Governance and Compliance with Microsoft Purview**
- 10. Business Development & Digital Marketing Internships**

## PROJECT 1:

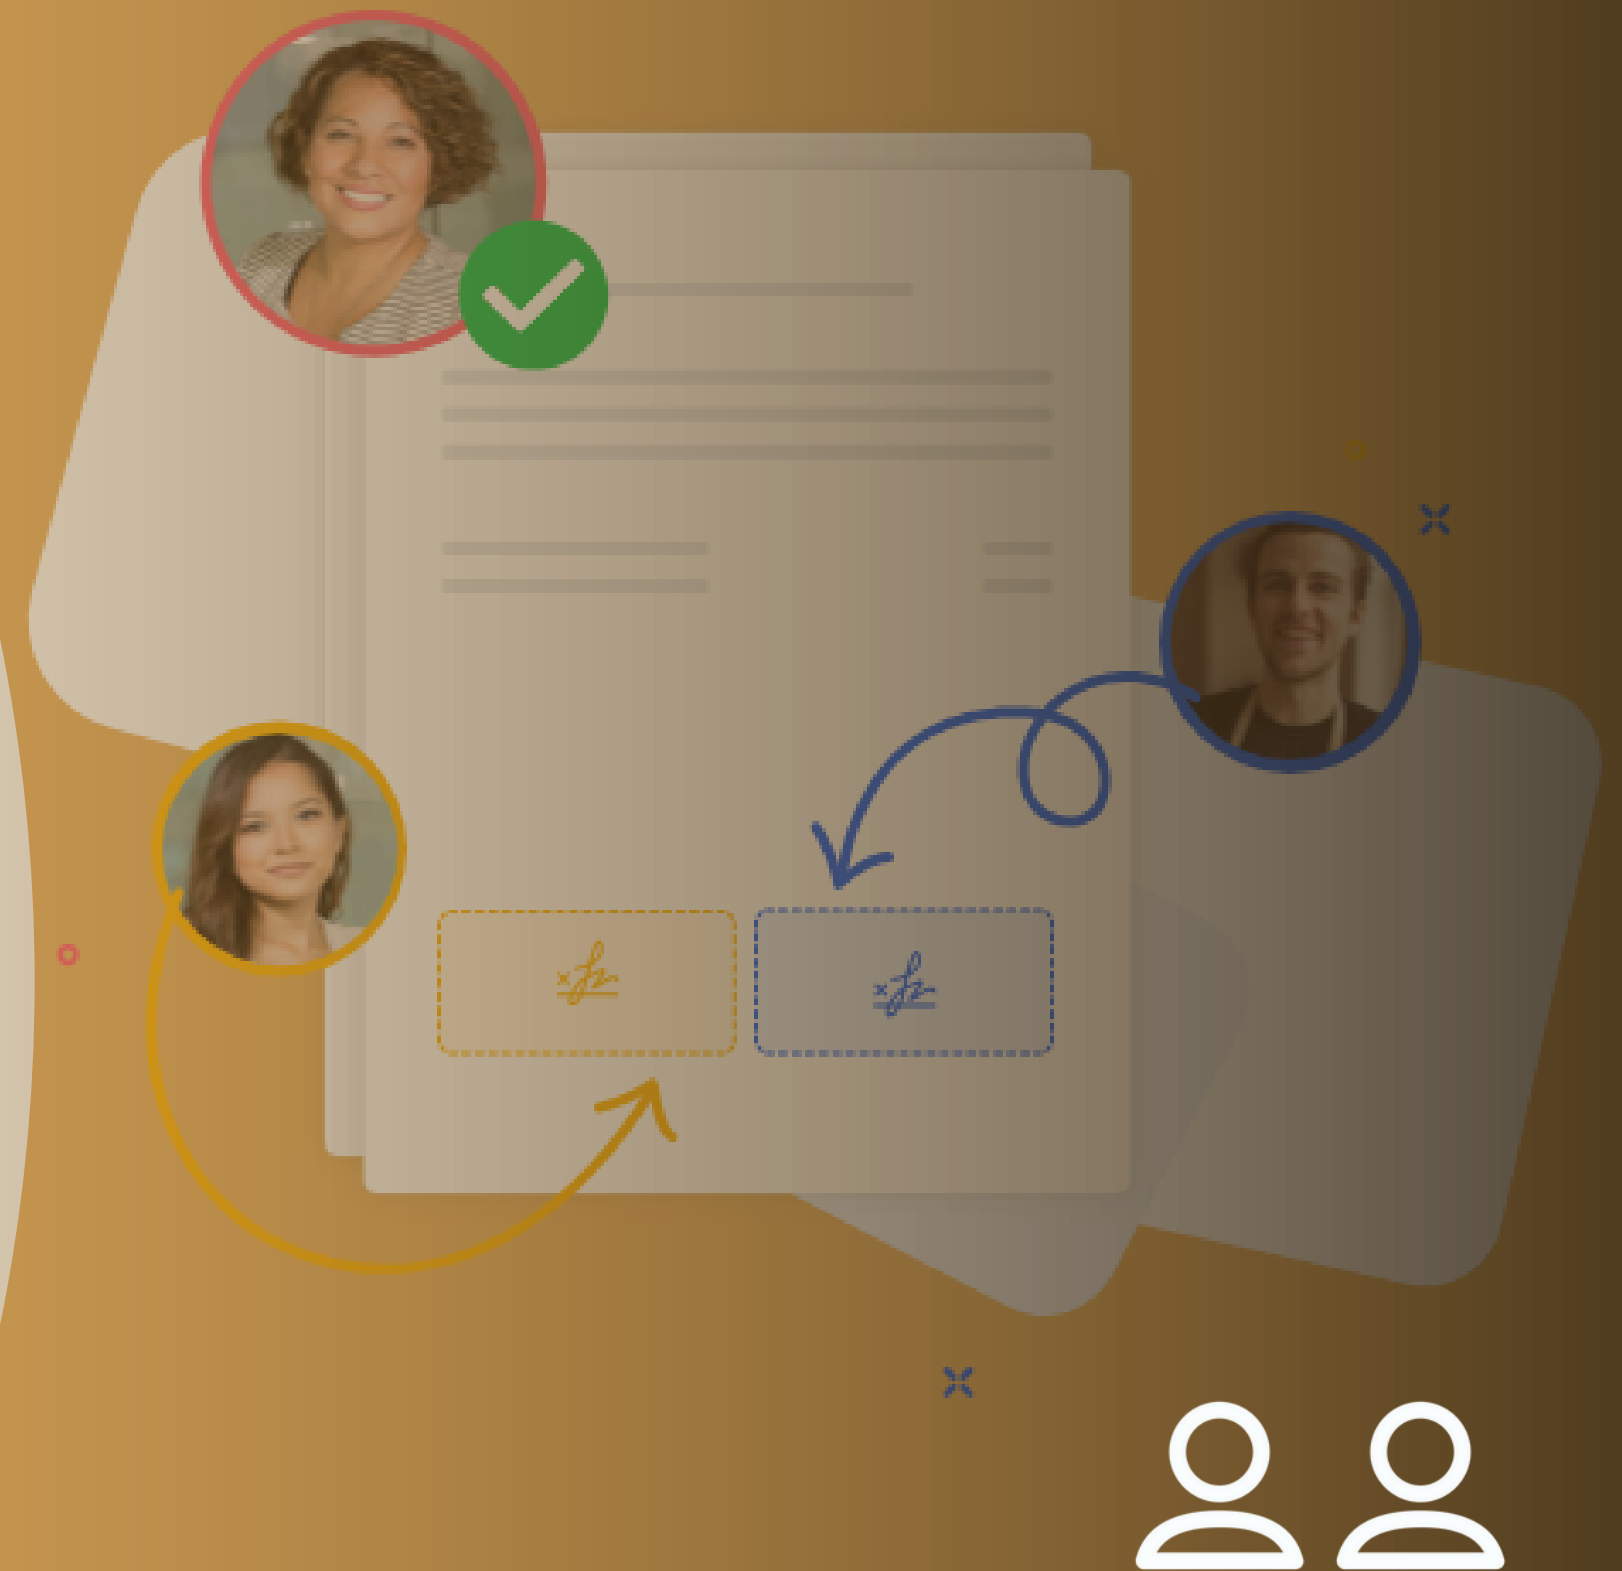

# Online Document Sign Solution (SaaS)

### Description :

A cloud-based solution enabling secure, efficient, and legally compliant online document signing, accessible anytime, anywhere.

### Technologies :

.Net Core, Angular

## PROJECT 2:

# Password Management Solution

### Description :

A secure and efficient solution for managing sensitive credentials, offering advanced encryption, intuitive access controls, and collaboration features for individuals and teams across various environments.

### Technologies :

.Net Core, Flutter, Encryption Algorithms

## PROJECT 3:

# API Health-check Monitoring Platform

### Description :

A robust and scalable tool to monitor API performance and quickly detect potential issues.

### Technologies :

.Net Core, Angular

## **PROJECT 4:**

# **Document Intelligence System**

### **Description :**

An application that trains an AI model for data classification and extraction.

### **Technologies :**

Python, Angular or React

# **PROJECT 5 :**

## **Enhancing HR Portal Apps**

### **Description :**

Upgrade and optimization of existing HR Portal to improve user experience, streamline processes, and boost overall efficiency. This initiative involves redesigning user interfaces, integrating advanced features, and ensuring seamless functionality across the platform.

### **Technologies :**

Power Apps, Power Automate, SharePoint

## **PROJECT 6 :**

### **Quality Assurance Assesement**

#### **Description :**

The app will allow QA engineers, inspectors, and managers to easily collect data, track compliance, and generate reports for quality assurance processes, all within an integrated, mobile-friendly platform.

#### **Technologies :**

Power Apps, Power Automate, SharePoint

QUALITY  
ASSURANCE

# PROJECT 7 :

## Design and Implementation of a Secure Zero Trust Architecture on Azure

### Description :

Design and deployment of a Zero Trust architecture on Microsoft Azure, aimed at enhancing the security of access and resources

The primary goal is to understand and apply the Zero Trust principles using Azure security tools and services to protect applications, data, and users.

### Technologies :

.Active Directory (Azure AD), Azure Security Center, Azure Firewall, Azure Bastion, Azure Key Vault

## **PROJECT 8 :**

### **Securing Organizational Environment with Microsoft XDR and Sentinel**

#### **Description :**

Implementation of all Microsoft XDR products (MDI, MDE, MDO, Defender for Cloud Apps), Defender for Cloud and the integration with Microsoft Sentinel, work on workbooks and PowerBI, create playbooks, and set up analytics rules. Incident management, running detection and investigation scenarios using KQL (Kusto Query Language), and automating response actions.

#### **Technologies :**

Microsoft Defender for Identity (MDI), Microsoft Defender for Endpoint (MDE), Microsoft Defender for Office 365 (MDO), Microsoft Defender for Cloud Apps, Microsoft Defender for Cloud

## **PROJECT 9 :**

### **Implementing Organizational Data Governance and Compliance with Microsoft Purview**

#### **Description :**

This project aims to implement organizational data governance and compliance using Microsoft Purview, focusing on managing and protecting sensitive data across an organization. The goal is to establish a robust data governance framework using key Microsoft Purview tools such as Azure Information Protection (AIP), auto labeling, AIP Scanner, Data Loss Prevention (DLP), Compliance Manager, and Insider Risk Management.

#### **Technologies :**

Azure Information Protection (AIP), Auto Labeling, AIP Scanner, Data Loss Prevention (DLP)
